Join Us! CMU Secure Blockchain Summit 2023

Carnegie Mellon University | Pittsburgh, PA, USA Campus

May 8-9, 2023

The [Secure Blockchain Initiative](#) (Blockchain@CMU) is Carnegie Mellon's cross-campus, cross-college, cross-continent collaboration on interdisciplinary research and education for blockchain and related technologies. Blockchain@CMU is rethinking blockchain across enterprise ecosystems to address current challenges and help advance blockchain beyond the hype.

The inaugural invitation-only CMU [Secure Blockchain Summit](#) will explore various topics, including crypto-economics, applied cryptography, programming languages, security and privacy, policy and usability, ethics and equity.

Join us in person as we convene academic experts, students, corporate and government executives, and entrepreneurs for two days of learning, networking, and innovation to discuss the future of blockchain research, technology and applications.
